The Director of Administration and Human Resources
Rwanda Information Society Authority
Kigali, Rwanda

Subject: Application for Academic Internship

Dear Sir/Madam,

I am pleased to express my interest in joining the Rwanda Information Society Authority (RISA) as a Software Engineering Intern for the academic internship period of August to December 2025. As a second-year Software Engineering student at African Leadership University (ALU), I am eager to apply my strong problem-solving and communication skills while learning and growing professionally within RISA's innovative environment.

My coursework in Data Structures, Algorithms, and Web Development has provided me with a solid foundation in software engineering. I have demonstrated strong problem-solving skills through programming, notably in developing a Productivity App Track that integrates goal setting, habit tracking, expense monitoring, note-taking, and an AI assistant for personalized productivity insights. I am committed to contributing my technical and collaborative skills to support RISA's mission of advancing digital transformation in Rwanda. The internship aligns with ALU's 200-hour academic requirement, and I am prepared to start in August 2025 to deliver value to your team.

Thank you for considering my application. I am enthusiastic about the opportunity to contribute to RISA and would welcome the chance to discuss my application further. I am available at enock.mugisha2004@gmail.com or +250793214141.

Yours sincerely,

Enock Mugisha
